DESIGNING A MORE CIRCULAR FUTURE™

SUSTAINABILITY - DESIGN - LEADERSHIP

About LAURENCE CARR

Award-Winning Regenerative Designer

Interior architect, product designer and consultant, Laurence Carr is the founder and CEO of Laurence Carr Inc.—a regenerative, multifaceted design NYC-based firm specializing in interiors that embody sustainability and healthy living. She is also the founder of Studio Laurence—a new sustainable, luxury home goods brand specializing in zero-waste product design.

A global influential leader in the field of regenerative design and a trailblazer for advocating the circular economy in the built environment, her firms work in alignment with the UN Sustainable Development Goals, and exclusively partner with manufacturers that support its mission to embrace mindful luxury amidst closed-loop, zero-waste processes and production methods.

Laurence is the Sustainability Ambassador of Maison & Objet and a judge on the committee for the Sustainable Path, a member of the United Nations Fashion and Lifestyle Network advisory board, and the executive producer and host of Chez Laurence, an EarthXTV original docu-series.

WITH LAURENCE CARR

EarthxTV ORIGINAL SERIES

One of the surest solutions to the ongoing Climate Crisis is moving our economy toward a more circular structure to reduce waste and carbon emissions by repurposing and upcycling materials whenever possible, and designing for longevity rather than single-use.

Laurence Carr is creator, host and executive producer of *Chez Laurence*, an EarthxTV original series, the first and only program dedicated to celebrating the principles of the circular economy in the design world, showcasing the urgent need for, and innovation toward, circularity and sustainability in the interiors and design-related industries, and how leading companies are rethinking their supply chain or production processes towards more circular processes.

EarthxTV is a global entertainment network focused on environment and sustainability programming airing worldwide.
